Greetings!

Giving Tuesday is a global day of giving on the last Tuesday of November. Please consider supporting us with a donation to [Hyde Street Community Services](#).

Our goal this year is to raise **\$25,000**, and we humbly ask for your support in reaching this goal. [Your Giving Tuesday gift](#) will allow us to continue providing treatment, emergency housing, clothing, transportation and food for our clients.

Our Mission

Our mission is to provide comprehensive mental health and rehabilitation services to the residents of San Francisco. We first opened our doors in 1975. Hyde Street operates three impactful programs: the Tenderloin clinic (TLC), Concussion and Migraine Clinic (CMC), and Full-Service Program (FSP) providing cognitive, physical and emotional care.

As we enter our 49th year serving the community, we are looking back at how HSCS continued to support and sustain residents in San Francisco. Highlights from this year include:

- Serving over 500 unique client encounters in 2024 and counting
- Securing housing for 100 clients
- Growing the art program by 55 participants
- Using hospital liaisons to improve follow-up for hospitalized clients from 27% to 83%
- Growing our team from 21 to 35 social workers, nurse practitioners, case managers and psychologists to support our clients

New Programs

Exciting things are also ahead. Over the next 6 months, we look forward to hosting a gallery event for our patient artists at the <https://www.sfwomenartists.org/> and beginning a transition program for incarcerated graduates to support a positive transition into the community.

HSCS is dedicated to continuing to provide and expand these services that are sensitive to the cultural, racial and sexual diversity of the populations we serve. You have played a huge role in the care we provide and the success of our organization. [We can't thank you enough for supporting us by making a donation today.](#)

We are deeply grateful for your continuing support and friendship, and hope you and your family stay safe, happy, and healthy during the holiday season and beyond.

Happy Holidays

From all of us at HSCS
